Re: PNM Consolidated Application for the Abandonment and Replacement of the San Juan Generating Station and Related Securitized Financing Pursuant to the Energy Transition Act

Dear Ms. Sandoval:

Public Service Company of New Mexico hereby files its Application with the New Mexico Public Regulation Commission for the approval of PNM's *Consolidated Application for the Abandonment and Replacement of the San Juan Generating Station and Related Securitized Financing Pursuant to the Energy Transition Act* ("Consolidated Application"). This Consolidated Application is supported by testimonies and exhibits, as listed below. PNM seeks Commission approval for three primary actions: abandonment of the San Juan coal plant; the addition of new replacement resources that include solar, natural gas and energy storage technologies; and securitized financing related to the San Juan coal plant's abandonment that allows funding of severance and job training for impacted workers and state-administered tribal and community programs.

The Consolidated Application follows the Energy Transition Act's balanced approach to energy transition, which promotes increasing use of renewable energy and supports affected communities where energy transition bonds are approved to finance the abandonment of coal plants. A review of all three of these significant actions in a consolidated filing allows the Commission and parties to assess each request in the context of the larger energy transition picture.

The following documents are included in the filing:

- Executive Summary
- Application
- Certificate of Service
- Testimony of Ron Darnell
- Testimony of Thomas Fallgren
- Testimony of Roger Nagel
- Testimony of William Kemp
- Testimony of Nicholas Phillips
- Testimony of Nick Wintermantel
- Testimony of Gary Dorris
- Testimony of Jeff Mechenbier
- Testimony of Henry Monroy
- Testimony of Michael Settlage
- Testimony of Elisabeth Eden
